Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claims 1-36 are pending in this application.

Election/Restrictions

Applicant's election without traverse of Group, claims 1-24 and the species HPMC and polymethacrylate latex respectively in the reply filed on 8/4/06 is acknowledged. Accordingly claims 25-36 are withdrawn as being directed to a non-elected invention and claims 10 and 23 are withdrawn as being directed to a non-elected species. Upon further consideration and review, it has been deemed that a supplementary restriction is required and the examiner apologizes for any inconvenience this presents the applicant.

This application contains claims directed to the following patentably distinct species: species I as shown in Figure I and species II as shown in Figure II. The species are independent or distinct because they are mutually exclusive. Species I is directed to a single layer impermeable that makes the reservoir that extends past the barrier layer and species II is a multilayer device wherein the impermeable layer is flush with the barrier layer.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, the dosage form of claim 1 is generic.

Note if species I is elected, the examiner also requests that applicant clarify the impermeable polymer elected in claim 3. It is noted that applicant elected polymethylacrylate latex for the multilayer reservoir.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable

thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
